

# The Great Energy Hunt

## ASSIGNMENT: PRESENTATION REPORT

Your teacher will assign you one of the following energy sources.

1. Biomass
2. Coal
3. Ethanol
4. Geothermal
5. Hydroelectric Power
6. Hydrogen
7. Natural Gas
8. Nuclear Energy
9. Petroleum
10. Propane
11. Solar Energy
12. Wind Energy

Research and create a presentation report about your assigned non-renewable or renewable energy source.

Use the questions listed below, the Internet and Microsoft PowerPoint to complete your presentation report.

1. What is it?
2. History of the energy source
3. Where is it found?
4. Is it Non-Renewable or Renewable?
5. Costs
6. Advantages
7. Disadvantages
8. Example(s) of energy source usage in the United States
9. Is this energy source a solution to the United States energy crisis?
10. Sources

**How your grade will be calculated:**

Graded Elements	Total Points
Research	30
Presentation	60
Spelling and Grammar	10
<b>Total</b>	<b>100</b>

# QUIZ 1

# The Great Energy Hunt

## on-Renewable or Renewable Energy Sources

**Directions:** Determine which energy source is Non-Renewable or Renewable.  
(5 points each)

Non-Renewable (NR) Renewable (R)	Energy Sources
1.	1. Biomass
2.	2. Coal
3.	3. Ethanol
4.	4. Geothermal
5.	5. Hydroelectric Power
6.	6. Hydrogen
7.	7. Natural Gas
8.	8. Nuclear Energy
9.	9. Petroleum
10.	10. Propane
11.	11. Solar Energy
12.	12. Wind Energy
